

The Wound Care Formulary for CityCare will comprise of 3 lists:

**LIST ONE** – This list is for all your weekly dressing stock order.

**LIST TWO** – This list contains dressings which are on list one but are larger sizes that you will not require on a regular basis in order to obtain these please contact your manager for authorisation. It also contains specialist dressings that are not required on a regular basis, if these are needed then your manager can authorise two weeks of dressings, if they are needed for longer then please ring the Tissue Viability Team to discuss the rationale for use. There are also some dressings that can only be authorised by the Tissue Viability Team.

**LIST THREE** – This list contains products which need to be obtained by prescription.

**Any products required which are not on list 1, 2 or 3 please ring Tissue Viability Team to discuss.**

**WOUND CARE LIST 3 – This list is currently under review.**

List 3 contains products that will need to be obtained on prescription and currently consists of:

**Negative pressure wound care products:** Please request a prescription from the patient's GP

V.A.C. products  
Snap dressings  
PICO 7

**Flamazine (Sulfadiazine Silver 1%) Cream:** Please request a prescription from the patient's GP

**Larvae therapy:** These should be prescribed by the TVN wherever possible. The TVN will usually liaise directly with the community pharmacist to arrange.
